We intend to be recognised for excellence and leave our mark as an innovative merchant, as well as a socially responsible organisation.

Antalis suppliers are committed to meet all regulatory requirements:

- Health and Safety legislation
- Environmental legislation
- R.E.A.C.H
- UK & EU Timber Regulations

To demonstrate beyond compliance **Antalis** suppliers' plants are certified to the following voluntary third-party certification:

- Energy: ISO 50001
- Quality: ISO 9001
- Sustainable sourcing: FSC™

We hereby certify that all paper products manufactured by our suppliers do not contain any conflict minerals from the DRC.

We hereby certify that all wood pulp used by our suppliers do not come from Russia and Belarus.

Pulps used are Elementary Chlorine Free (ECF).

Antalis and its supplier certify that **Curious Translucents** products are made with an energy management system which complies with the requirements of ISO 50001

CERTIFICATE

This is to certify that

has implemented and maintains an **Energy Management System**.

Scope:
Manufacturing and Sales of Technical Papers, Artpapers and Finepapers with and without Watermark

Through an audit, documented in a report, it was verified that the management system fulfills the requirements of the following standard:

ISO 50001 : 2018

Certificate registration no.	020162 EMSt18	 
Date of revision	2023-07-30	
Valid from	2021-08-26	
Valid until	2024-08-25	
Date of certification	2023-07-30

Antalis and its supplier certify that **Curious Transluents** products don't use substances of animal origin

[REDACTED], 29.09.2023

Self Declaration

Manufacturer: [REDACTED]
Address: [REDACTED]

Products: **Curious Transluents**
[REDACTED]
[REDACTED]

➤ **Vegan**

- We declare that we do not use any animal derived products for the production of the above mentioned products.

Please note that it cannot fully excluded that ubiquitous quantities of substances which are listed in any banned lists are to be found in paper.

Antalis and its supplier certify that **Curious Translucents** is conform with the R.E.A.C.H compliance

Information letter
REACH-Regulation (EC) No. 453/2010

10.07.2023

Dear Customer,

the [REDACTED] pursues a policy to minimise the environmental, health, and safety risks of its raw materials. This includes the chemicals used in our production processes.

[REDACTED] complies with European Community regulations and local laws in the selection, storage and use of chemicals. The EC regulation on chemicals and their safe use deal with Registration, Evaluation, Authorisation and Restriction of Chemicals substances (REACH). This regulation requires all chemical substances used in our fine papers to be registered in the European Chemicals Agency (ECHA) database. As a "down stream user" of these substances, [REDACTED] accepts only chemicals that have been registered in this database. We regularly communicate to our suppliers that we only accept pre-registered substances for use in our products.

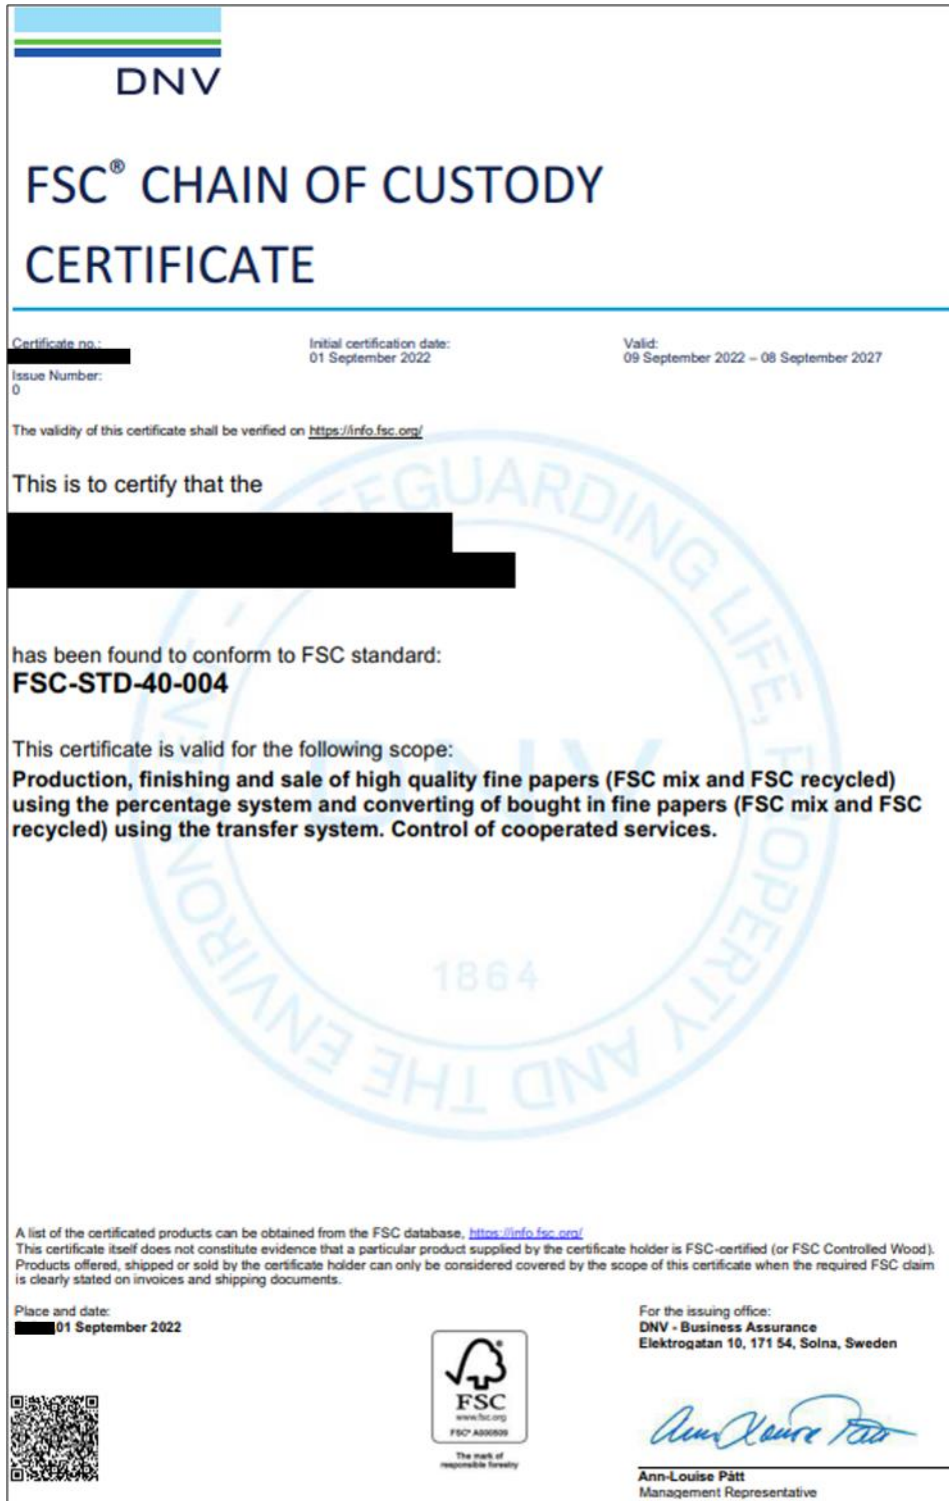

The list of substances that have been pre-registered is published by the ECHA on following link:
<https://echa.europa.eu/de/information-on-chemicals/registered-substances>

The ECHA also publishes a candidate list of Substances of Very High Concern (SVHC), which includes substances that may have very serious and often irreversible effects on humans and the environment:
<https://echa.europa.eu/de/candidate-list-table>

Based on the declarations submitted by our raw material suppliers in compliance with our systems for traceability of all incoming raw materials, and on our knowledge of the manufacturing process, we can confirm that [REDACTED] is not using any substances defined as SVHC. We continue to monitor the SVHC candidate list for any updates.

At [REDACTED], we have also carried out a risk assessment to guarantee a continuous supply of the chemicals that we need for our processes and have trained our personnel to understand the requirements that REACH sets for our production.

Antalis and its supplier certify that **Curious Transluents** products are manufactured from raw materials sourced from FSC-certified forests
