**Re: E.U. Directives 2002/95/EC (RoHS) and 2002/96/EC - DILITE®**

Ladies and gentlemen,

Regarding your inquiry with reference to Directive 2002/95/EC (RoHS) and 2002/96/EC  
ALCAN COMPOSITES makes the following statement:

The product DILITE® with the standard surface "white" does not contain heavy metals like lead, chrome VI mercury and cadmium, which were consciously added. Thus the European Union guidelines are kept with above product specifications.

Yours sincerely,

ALCAN COMPOSITES  
Alcan Singen GmbH

  
i.A. Stefan Wauer
