PRINTER & INK COMPATIBILITY

WEIGHT

180
g/m²

PRODUCT DESCRIPTION

- Substance: 180 g/m² (DIN ISO 536)
- Thickness: 210.0 µm (DIN 53105 T1)
- Whiteness CIE: DIN 53145 /2 % 155.0
- Opacity: 98.0 % (DIN 53146)
- Roughness PPS H10 WS: 550.0 µm*100 (DIN ISO 8791-4)
- L* WS: 94.8 (DIN 6174)
- a* WS: 3 (DIN 6174)
- b* WS: 15.0 (DIN 6174)

BENEFITS

- Excellent quality
- Quick drying finish
- Enhanced smoothness
- Excellent line-sharpness
- Excellent water resistance

RECOMMENDATIONS

- The paper should be fed into the inkjet printer according to the printer instructions for use.
- The paper should be protected from moisture.
- Avoid marking the paper with fingerprints.
- A relative humidity of over 60% can affect the picture quality.
- Printouts with pigmented inks should be protected from smudging for a short time until the pigments have completely anchored themselves in the coating layer.

The following technical details are issued to the best of our knowledge, however, without any responsibility for results due to several different kinds of material and application processes. Therefore, we highly recommend that before every usage a test should be conducted on the original material. Antalis cannot be responsible for any damage to the printer caused by printing our media.
