

COALA VIEW 2D LAM & PRINT

MATERIAL DESCRIPTION

Coala View 2D Lam & Print is a 75µm highly transparent and slightly glossy polymeric laminate, which has been specially developed for laminating print media with increased transparency but can also be printed as a highly transparent film. Additional UV protection is built into the over laminating film to help resist color fade caused by ultraviolet light. The perfect clarity (low haze) combined with high UV protection makes Coala View 2D Lam & Print the perfect match with Coala View 2D window film.

In order to protect your perforated window film from dust, humidity or contaminations while maintaining perfect transparency even in rain, lamination is essential!

PRINTER & INK COMPATIBILITY

FILM THICKNESS

FEATURES

- Face film: High transparency Polymeric vinyl
- Adhesive: Clear permanent solvent based
- Release liner: Frosted polyester film 50µm

BENEFITS

- Excellent transparency
- High UV protection
- Can also be used as a high transparency printing film.
For all types of printing method such as digital solvent, eco-solvent, screen printing or UV curable
- Laminate stripes can be used as edge guard

APPLICATIONS

- Especially developed to cover perforated film so that no dust, humidity or other contamination can penetrate the perforation
- Recommended for applications where the best UV resistance and clarity is required even at extreme conditions
- Wherever perfect visibility is required.

DURABILITY

- Outdoor: Up to 2 years in mid European conditions
- Indoor: Up to 3 years

SHELF LIFE STORAGE AND CONDITIONS

- 1 year stored at +15 to +20°C and relative humidity between 45% and 65%.

The following technical details are issued to the best of our knowledge, however, without any responsibility for results due to several different kinds of material and application processes. Therefore, we highly recommend that before every usage a test should be conducted on the original material. Antalis cannot be responsible for any damage to the printer caused by printing our media.
