

The art of contrast

Print Speed laserjet is a range of premium uncoated papers with more than 20 years of experience in the market and had become a preferred reference in uncoated papers, offering excellent printability, consistency and outstanding quality.

Product features:

- + Premium whiteness & smoothness
- + Excellent bulk & opacity
- + Perfect printability on digital & offset

Applications:

- Print Speed laserjet is specifically designed to print on the offset printers with subsequent personalisation on laser and inkjet equipment.
- It is suitable for printing business collaterals, letterheads, brochures, annual reports, business cards and notebooks.
- A wide range of professional papers in multiple formats and weights.

Basis weight (g/m ²)	ISO 536	75	80	90	100	120	135	160	250	300
