

Description:-

- LIGHT FROST; Double-sided, diffusion coated polyester with high anti-static properties, 35% opacity giving 'frosted' effect.
- HEAVY FROST: Double-sided, diffusion coated polyester with high anti-static properties. 70% opacity with optimum balance between translucency & whiteness. Primarily for backlight applications
- Smooth matt surface giving a strong image & excellent ink adhesion
- No need to laminate or encapsulate
- Suitable for frosted binder covers & presentation front covers
- Great for backlit applications such as vending machines & menu boards
- Waterproof, tear proof, greaseproof
- Durability without lamination or encapsulation
- Trouble free running on dry toner equipment
- Easily guillotined & punched
- Suitable for harsh & outdoor conditions, frequently handled documents
- Maintains flatness, no curling.
- Extremely strong toner adhesion => scratch resistant print
- Recyclable as category 7 plastic

Compatibility:-

- Suitable for most dry toner (laser/LED/flash fusion) print processes, both mono and colour small-volume, mid-volume & production machines.

Applications:-

- Light Frost: Binder covers, presentation front covers, tags.
- Backlit: Backlit displays, tags.

Properties :-

| Property | 95µ Light Frost | 120µ Light Frost | 195µ Backlit |
|------------------------|-----------------|------------------|--------------|
| Caliper mic (ISO 534) | 95 | 120 | 195 |
| Grammage gsm (ISO 536) | 125 | 160 | 260 |
| Opacity % | 35 | 35 | 70 |
